

HUMANISING AUTONOMY

Teaching autonomous systems to
understand human behaviour in cities

HUMANS SEE
CONTEXT
DIVERSITY
SUBTLE BEHAVIOURS

MACHINES SEE

OBJECTS

BOUNDING BOXES

OBSTACLES

A photograph of a busy city street, likely in London, with a red overlay. White rectangular bounding boxes are drawn around several pedestrians crossing the street, illustrating the concept of object detection in autonomous driving. The text is centered over the image.

LACK OF HUMAN UNDERSTANDING PREVENTS AUTONOMOUS VEHICLE DEPLOYMENT
